ANKIT PRAJAPATI

Software Developer | Web Development & Backend Technologies

Agra, Uttar Pradesh | ankitprajapati56991@gmail.com | https://github.com/ankitprajapati29 | www.linkedin.com/in/ankitprajapati29

SUMMARY

Computer Engineering student with hands-on experience in software development, full-stack web applications, and AI-powered solutions. Experienced in building responsive user interfaces, developing backend APIs, and integrating frontend and backend systems using Java, Python, React, TypeScript, and FastAPI. Interested in designing scalable, efficient, and user-focused software solutions, with an emphasis on practical problem-solving, clean code, and continuous technical growth.

TECHNICAL PROJECTS

1. VeriX — AI-Powered Document Verification
React, TypeScript, Python, FastAPI, Tesseract OCR

- Developed a document verification prototype with OCR-based text extraction, validation and fraud-risk analysis.
- Integrated a React/TypeScript frontend with a FastAPI backend.

GitHub: Repository | Live Demo: Website

2. SecureDoc AI — Identity Document Screening
Python, FastAPI, Tesseract OCR, OpenCV, PyMuPDF

- Built a prototype for identity-document screening using OCR, image processing and validation logic.
- Implemented Verhoeff checksum validation for supported Aadhaar-number inputs.

GitHub: Repository | Live Demo: Website

3. SurakshaCheck — AI-Powered Scam Detection System
React, TypeScript, Python, FastAPI, Google Gemini API

- Developed a scam-detection solution to analyze suspicious messages, links and potential digital fraud.
- Combined rule-based checks and AI classification to identify risks and generate understandable explanations.
- Designed multilingual and voice-based accessibility features.

GitHub: Repository | Live Demo: Website

EDUCATION

B.E. in Computer Science Engineering — **July 2025 - May 2029**
Dr Bhimrao Ambedkar University Agra.

TECHNICAL SKILLS

- Java
- Python
- JavaScript
- React.js
- TypeScript
- HTML & CSS
- FastAPI
- REST APIs
- Git & GitHub

HACKATHONS & ACHIEVEMENTS

Global Innovation Hackathon 2026 — Bharat Academix
Finalist | Theme: Build for a Better Future | Project: VeriX

SPIRIT 3.0 Buildathon 2026 — DSMNRU, Lucknow
Finalist | Theme: FinTech & Security | Project: SurakshaCheck

Sangyan Hackathon 2026 — IIT (BHU), Varanasi
Round 1 Qualified | Theme: AI for Investor Safety & Financial Fraud Prevention | Project: AI Financial Safety Assistant
